## Tiara Sport 43 LE

Tiara quality in a fast and fun outboard-powered cruiser.

An exciting model, the Tiara Sport 43 LE is the first in a series from this venerable builder. Triple outboard power with choices from Mercury (Racing 450R) or Yamaha (425 XTO) deliver top-speeds of 58.5 mph. Cruising speeds of 30-35 mph yield over 200 miles of range with either engine option. Exhilarating performance and precise handling tell only part of the story, as the 43 LE is packed with features ideal for entertaining or weekend cruising.

What really sets this boat apart is the variety of seating. The cockpit has comfortable aft-facing, angled seats on both sides facing a centerline twin seated sport lounge, which is complete with flip-up chaise footrests, speakers, drink holders and a teak table. Behind the sport lounge seating is an electric barbecue. Amazingly, this entire sport lounge module manually pivots 180 degrees and can be positioned forward-facing, angled and aft-facing.

Press a button and an electric actuator lowers the aft

portside section of the cockpit gunnel. This fold-down terrace extends the cockpit and brings a welcome link to the water. A Makefast powered sunshade expands to cover the exterior cockpit. Optional retractable doors separate these two areas and allow the mid cockpit and helm to be air conditioned. An additional gathering area on the bow features a comfortable padded lounge with drink holders and backrests.

A serving galley with sink and twin refrigeration drawers is found in the mid cockpit. Below, a head with separate shower, and two large cabins that accommodate five allow for comfortable cruising.

"The 43 LE is built with the same care, quality and attention to detail Tiara has always provided, in a fun and functional outboard-powered configuration," says Tom Slikkers, CEO and president of Tiara Yachts/ Tiara Sport. "The unique cockpit with our rotating lounge and fold-down terrace provides both comfort and versatility to the layout." ★
